## Product description:

MASE MARINER960 9,6KW marine generator

MASE MARINER960 single-phase marine generator is equipped with a KUBOTA D722 diesel engine capable of delivering a maximum power of 9.6KW at 3600 rpm.

The marine generator MASE MARINER960 is built with and synchronous alternator, self-excited with air cooling, is extremely compact and powerful, suitable even on small boats.

The alternator of the MASE MARINER960 is synchronous 2-pole, self-regulated, self-excited, brushless, which in conjunction with the powerful engine KUBOTA can deliver a maximum power of 9.6KW. The rotor and the stator are coated with epoxy paint to prevent the attack of atmospheric agents, in addition it is equipped with safety systems of auto stop in case of high temperatures detected on the windings.

The CBU control module of the marine generator MASE MARINER960 has a new design, the latest technologies, a large display and micro-buttons for quick navigation of menus, start and stop procedures; protection degree IP54. Very compact, 86x124mm and equipped with 10mts shielded cable, the CBU module has multiple functions for a complete monitoring of the marine generator MASE MARINER610:

- ON/OFF/START/STOP/MENU controls.
- Digital hour meter, Output voltage, Group battery voltage, External battery pack voltage, Frequency, Maintenance interval, Last 10 alarms list with time.
- 13 different alarm icons can be displayed.
- 485 Mod-Bus connector to monitor the group from the main control panel of the boat.
