## MASE MARINER 906 S SILENCED SINGLE-PHASE MARINE GENERATOR 9KW EPA

MASE MARINER906S single-phase silenced marine generator is equipped with a YANMAR 3TNV80F engine with **EPA emissions standard**, powered by diesel and capable of delivering a maximum power of 9 KW at 1800 rpm.

The MASE MARINER906S is built with and synchronous alternator, self-excited with air cooling, is extremely compact and powerful, suitable even on small boats. The alternator is complete with a voltage regulator that ensures the stability of the voltage delivered by the generator, delivering current like at home.

The MASE MARINER906S allows easy access for maintenance of the fuel and lubrication systems, sea water pump, air filter, oil filter and fuel. It is also equipped with safety systems of auto stop for low oil pressure and high temperature engine or exhaust gas.

The MASE MARINER906S is equipped with a soundproof cabin that makes it super silent, with a sound emission of 53dB(A) at a distance of 7 m. The painted aluminum soundproofing cabin is extremely lightweight and of very high resistance to external agents.

The MASE MARINER906S marine generator has **EPA certification** valid only **for the US market**.
