Product description:

GENERATOR SINGLE-PHASE/ THREE-PHASE POWER 143 KVA AVR

Generator set 143KVA single-phase/three-phase with FPT engine powered by diesel at 1500 rpm, compact and easy to use, mounted on a fixed base. This generator is equipped with a soundproof cabin made of structural steel sheet, weatherproof and internal lining of soundproofing material with high noise reduction that make it **supersilenced**.

The generator set consists of a Stamford, Mecc Alte or Marelli Motori alternator, self-excited, brushless and with **AVR** voltage regulator. The generator set is equipped with electric start with battery with a low fuel consumption in fact it consumes only 28 liters/hour at 75% of the load. In addition to this, it has a panel with an automatic control unit and a terminal board for automatic start-up.

This generator set is perfect for outdoor use such as for shipbuilding use.
