HONDA OUTBOARD BF 250D XRU EXTRA LONG SHAFT 250HP MECHANICAL CONTROL

Honda BF250D XRU outboard engines are perfect for professional use, they are reliable, compact and lightweight complete with PGM-IG electronic fuel injection system.

HONDA Outboard BF250D XRU with VTEC[™] engine, 635mm transom height, counter-rotating stem, 60A battery charging current and motorized trim and tilt adjustment. HONDA Outboard BF250D XRU is a large displacement engine that delivers superior torque and top speed and is capable of delivering power and performance for both professional and competition use.

HONDA Outboard BF250D XRU is large displacement, featuring high torque value at all operating speeds and delivers high acceleration and exceptional top speed.

BLOAST system for explosive acceleration

The Boasting LoW Speed Torque (BLAST) system on the HONDA BF250D XRU outboard significantly improves performance and acceleration by automatically anticipating injection times and increasing the air/fuel ratio.

VTEC, extreme performance

The VTEC (Variable Valve Timing and Lift Electronic Control) technology available in the HONDA BF250D XRU outboard varies intake valve lift and timing for optimal performance. This technology ensures smooth and stable idling at low speeds, while increasing valve lift and timing at high rpm to provide a wider and more optimized torque curve.
