

# HONDA Outboard BF 135D XRU SILVER Extra Long Shaft 135 Hp

**Product price:** 

10,750.00 € tax excluded

## **Product description:**

## **HONDA Outboard BF 135D XRU SILVER Extra Long Shaft 135 Hp**

Honda BF 135D XRU outboard engine are perfect for professional use, they are reliable, compact and lightweight complete with PGM-Fi electronic fuel injection system.

HONDA BF 135D XRU are outboards optimized to offer more power for a wide range of different boats. The firm, smooth power this advanced technology offers is sure to put a smile on your face as you venture out to sea.

The HONDA BF 135D XRU comes complete with the VTEC™ system that keeps fuel consumption down while delivering an exciting increase in power. First used on Honda's Formula One cars, it delivers increased power and torque at all engine speeds.

The HONDA BF 135D XRU features BLAST™ (Boosted Low Speed Torque), which delivers high torque even at low revs by unleashing powerful thrust from start-up. The ECU automatically advances the ignition timing, while simultaneously increasing the fuel-to-air ratio to give you more boost from low rpm. This innovative technology patented for Honda's 4-stroke engines has become the benchmark in 4-stroke engine design.

The HONDA BF 135D XRU dual-stage air induction works with a shuttle valve built into the Variable Air Intake (VAI) manifold. When fully open, this valve changes the resonance and airflow generating more torque at low rpm. When the throttle valve is fully open and rpm increases, the cooling valve closes and creates a direct airflow to the engine.

HONDA BF 135D XRU outboards are NMEA2000® compliant. There is no need to modify the wiring because everything is set up. Simply plug the engine into the CANbus network - the boat's nervous system - for total connectivity and control. Then the engine can be connected to other NMEA devices such as the navigation system, GPS, sonar devices, sounder and chartplotter. All information, including engine data, will be displayed via the multifunctional gauges.

### TECHNICAL FEATURES HONDA BF 135D XRU

Net Power (kW): 99.3 Net Power (Hp): 135 Displacement: 2354 cm<sup>3</sup> Shaft Length: Extra Long

Starter: Electric

Ignition system: Electronic PGM-IG

Fuel supply: PGM-FI (Programmed electronic injection)

Engine trim and lift: Electric Bore x stroke: 89 x 96 mm

Engine: Honda DOHC, 4-stroke Number of cylinders: 4 in line

Speed at full throttle (rpm): 5000-6000

Cooling system: Water

Battery charge capacity (A): 40 Propeller rotation: Standard Transom height (mm): 635

Length (mm): 845 Width (mm): 580 Height (mm): 1790 Dry weight (Kg): 217

Are you looking for an outboard with different technical characteristics? <u>Here</u> you can find the entire Honda range or other brands specializing in the sector.

#### **Product features:**

Fuel: Gasoline

Engine: DOHC, 4 tempi Ignition: Electronic PGM-IG Starting system: Electric Engine capacity (cm³): 2354

Number cylinders: 4
Cylinders' position: In

Cylinders' position: In line

Cooling: Water (with thermostat) Bore x stroke (mm): 87 x 99

Rpm at full throttle (rpm): 5000 - 6000 Appearance and engine lifting: Electric

Transom height (mm): 635

Net power (kW): 99.3

Length (mm): 845 Width (mm): 580 Height (mm): 1790 Dry weight (Kg): 217

Shaft Length: X
Controls: Remote
