

HONDA OUTBOARD BF 135D LCRU SPORTY WHITE LONG SHAFT 135 HP

Product price:

11,150.00 € tax excluded

Product description:

HONDA OUTBOARD BF 135D LCRU SPORTY WHITE LONG SHAFT 135 HP

Honda BF 135D LCRU SPORTY WHITE are outboard engines perfect for professional use, they are reliable, compact and lightweight complete with PGM-Fi electronic fuel injection system.

HONDA BF 135D LCRU are outboards optimized to offer more power for a wide range of different boats. The firm, smooth power this advanced technology offers is sure to put a smile on your face as you venture out to sea.

HONDA BF 135D LCRU SPORTY WHITE outboard is a large displacement engine that delivers superior torque and top speed and is capable of delivering power and performance for both professional and competition use.

Honda BF 135D LCRU SPORTY WHITE is equipped with the special ECOmo low-blend combustion control system that ensures significant fuel economy from RPM and performance. Much less fuel is consumed once rpm is reached. ECOmo is a poor-blend combustion control system that delivers significant fuel savings from RPM and performance.

Honda's dual-stage air induction works with a shuttle valve built into the Variable Air Intake (VAI) manifold. When fully open, this valve changes the resonance and airflow generating more torque at low rpm. When the throttle valve is fully open and revs increase, the cooling valve closes and creates a direct airflow to the engine. This delivers more power above 3500 rpm. Combined with the BLASTTM system, you get a disruptive effect.

The HONDA BF 135D LCRU Boasting LoW Speed Torque (BLAST) system significantly improves performance and acceleration by automatically anticipating injection times and increasing the air/fuel ratio.

TECHNICAL FEATURES HONDA BF 135D LCRU SPORTY WHITE

Net Power (kW): 99.3 Net Power (Hp): 135 Displacement: 2354 cm³

Shaft Length: Long Starter: Electric

Ignition system: Electronic PGM-IG

Fuel supply: PGM-FI (Programmed electronic injection)

Engine trim and lift: Electric Bore x stroke: 89 x 96 mm

Engine: Honda DOHC, 4-stroke Number of cylinders: 4 in line

Speed at full throttle (rpm): 5000-6000

Cooling system: Water

Battery charge capacity (A): 40 Propeller rotation: counter-rotating

Transom height (mm): 508

Length (mm): 845 Width (mm): 580 Height (mm): 1665 Dry weight (Kg): 214

Are you looking for an outboard with different technical characteristics? <u>Here</u> you can find the entire Honda range or other brands specializing in the sector.

Product features:

Fuel: Gasoline

Engine: DOHC, 4 tempi Ignition: Electronic PGM-IG Starting system: Electric Engine capacity (cm³): 2354

Number cylinders: 4

Cylinders' position: In line

Cooling: Water (with thermostat) Bore x stroke (mm): 87 x 99

Rpm at full throttle (rpm): 5000 - 6000 Appearance and engine lifting: Electric

Transom height (mm): 508

Net power (kW): 99.3

Length (mm): 845 Width (mm): 580 Height (mm): 1665 Dry weight (Kg): 214

Shaft Length: L Controls: Remote
