Product description:

MOSA GE 3900 SINGLE-PHASE GASOLINE GENERATOR STAGEV AVR 3.3 KW

MOSA GE 3900 is a single-phase generator, equipped with GENKINS 225 230M StageV engine supplied by Gasoline, delivers a maximum power of 3,3KW, complete with AVR voltage regulator.

MOSA GE 3900 is equipped with self-winding, equipped with AVR voltage regulator that allows the connection with sensitive electronic devices (computers, smartphones, TV) without the risk of damaging them due to sudden changes in the supply current.

The MOSA GE 3900 generator provides reliable power for home, work and leisure environments, safely appliances and other electronic devices. Convenient sockets and controls make starting and operating the generator easy and fast.

The MOSA GE 3900 generator has a convenient double-curved handle and integrated tow dolly for easy mobility and storage. MOSA GE 3900 has a completely steel structure and a tank with a maximum capacity of 15 liters that allows the generator to work for about 6.5 hours at full load.

STAGEV EMISSION STANDARDS

MOSA GE 3900 is equipped with STAGEV "mobile" motorization, as required by European Regulation 2016/1628. These new motorizations allow to exponentially reduce the emissions of particulate matter and nitrogen oxides delivered by the generator into the environment, and ensure a 200% reduction in environmental impact compared to standard motorizations.
