TRUMA COMBI D6 INETX 6 KW DIESEL HEATER FOR CAMPER AND TRUCK

TRUMA COMBI D6 INETX is a diesel-powered stove suitable for heating trucks and campers, capable of delivering a maximum heat output of 6KW.

The powerful Truma Combi D6 warm up even the largest motorhomes in no time. The device also has an integrated 10-liter water tank that can be heated if necessary. No additional boilers are therefore required, thus saving weight and space.

The TRUMA Combi is designed to provide hot water and heat simultaneously. Powerful, compact and extremely light, they are the ideal aid for small and medium-sized motorhomes. Warm up is also possible without heating water, similarly, you can heat water without necessarily turning on the warm up.

The Truma Combi D6 is also extremely compact and can therefore be installed in the vehicle with great flexibility.

The TRUMA COMBI D6 INETX is equipped with the iNet X control panel which allows you to have centralized control of the stove via your smartphone. Thanks to the iNet X control panel you can remotely set the optimal temperature of your passenger compartment in a simple and fast way, thanks to a simple and intuitive interface.
