Product description:

PRAMAC Network/Generator Switching Panel LTS 40A

Load Transfer Switch (Accessory for Industrial Generators): Network/generator switching panel supplied separately in a dedicated metal box (designed for wall or floor mounting). The LTS panel includes two electrically and mechanically interlocked contactors (for transferring energy from the network or generator), an emergency stop button, power terminals (network, generator, and usage), and auxiliary terminals for easy connection to the ACP panel (mounted on the generator). NB Accessory only compatible with the ACP panel.
