

GENERATOR 13 KVA LPG - 13 KVA NATURAL GAS

Product price:

4.720,00 € tax excluded

Product description:

GENERATOR 13 KVA LPG - 13 KVA NATURAL GAS

13KVA generator powered by LPG or Natural Gas Supersilenced with automatic control unit.

Live in peace and serenity thanks to the range of home standby generators **powered Natural Gas and Liquid Propane**, with models covering the 8-13 KVA range.

Check the status of your generator at any time, wherever you are, thanks to the new Mobile Link™ cellular monitoring. Your appliances will continue to work even when you are away.

An automatic **home standby** generator is the ideal solution to protect your home and the serenity of your family from blackouts, which occur more and more frequently and with unpredictable durations, with devastating effects.

With a generator with Home Standby automatic control unit, as soon as the current fails, the generator turns on automatically.

The gas generator has the heater and the 45A LTS mains-group switching panel available as optionals

The GA series is available in various models to meet the needs of home owners or entrepreneurs and their needs energetic.

Technical features:

Phase type: Single-phase

Maximum rated power ESP (LPG): 13 KVA

Maximum rated power ESP (LPG): 13 KW

Maximum rated power ESP (Natural Gas): 13 KVA

Maximum nominal power ESP (Natural Gas): 13 KW

Fuel: Natural Gas or LPG

Frequency: 50 Hz

Voltage: 230 V
Engine revolutions: 3000 rpm
Starter: Electric
Displacement: 999 cc
Cylinders: 2 V
Cooling: Air
Length: 1232 mm
Width: 648 mm
Height: 733 mm
Weight: 193 Kg
Voltage regulation: AVR
Super silenced

Free yourself from the need to refuel

Residential backup generators are **connected directly to your power supply**. With a GA generator, you no longer have to deal with gas cylinders.

Best quality power in the class

Thanks to True Power™ technology, this series of generator sets offers the best power quality on the market, with less than 5% total harmonic distortion to ensure the smooth operation of the most sensitive equipment.

Do you need more power? [DISCOVER HERE](#) all the options of single-phase supersilenced generating sets.

Non-binding images and technical data.

Product features:

Phase: Single phase
Maximum power single phase (KW): 13
Maximum power single phase (KVA): 13
Fuel: LPG / Natural Gas
Frequency (Hz): 50
Voltage (V): 230
Emissions Regulations: Stage 5
Engine rpm (rpm): 3000
Speed governor: Electronic
Starting system: Electric
Engine capacity (cm³): 999
Number cylinders: 2
Cylinders' position: V to 90°

Oil capacity (L): 1.6

Cooling: Air

Stand By Power [Liquid Propane] (KVA): 13

Stand By Power [Liquid Propane] (KW): 13

Stand By Power [Natural Gas] (KVA): 13

Stand By Power [Natural Gas] (KW): 13

Poles: 2

Compression ratio: 9.5 : 1

Length (mm): 1232

Width (mm): 648

Height (mm): 733

Dry weight (Kg): 193

Silenced: Yes

Super silenced: Yes

Voltage regulator: AVR
