ECOFLOW DELTA2 PORTABLE BATTERY 1,8 KW SOLAR RECHARGE

The ECOFLOW DELTA2 portable battery is a practical solution for having access, in any situation, to a silently silent energy source with zero CO₂ emissions.

ECOFLOW DELTA2 is a portable battery with a huge capacity of approximately 1 kWh, this guarantees hours of reserve energy. The ECOFLOW DELTA2 portable battery inverter's large load is capable of supporting even DIY tools up to 1800W (2700W peak, pure sine wave).

This battery can be recharged in multiple ways, to adapt to any situation. Plug-in charging, car charging and more, it's also a portable solar power station. With EcoFlow panels, full recharge takes place in just 4 hours. Power up to 11 devices simultaneously via AC, DC or USB outlets. Ideal as an emergency group in the event of a blackout.

Thanks to its innovative technology, it ensures you up to 10 years of daily use up to 80% of its original capacity. This is thanks to the LiFePO4 battery chemistry that guarantees over 3,000 full charge and discharge cycles and 6 times the industry average.
