## Product description:

### VISA BD 20 CK GENERATOR 22KVA SILENCED SINGLE-PHASE/THREE-PHASE AVR

The VISA BD 20 CK single-phase/three-phase generator is equipped with a BAUDOUIN 4M06G25/5 diesel engine, capable of delivering a maximum power of 22KVA, complete with **AVR voltage regulator**.

The VISA BD 20 CK generator is compact and easy to use, equipped with a bonnet with sound-absorbing panels that significantly lower acoustic emissions and make it **supersilenced**.

The generator consists of a STAMFORD S0L2-G alternator with AVR voltage regulator which also allows it to be used with equipment sensitive to current surges.

The AVR is a device that allows **to keep the output more constant and less dependent on the load**. Thanks to this card, there are fewer current drops or peaks and this makes the use of the various connected devices safer, improving their performance and duration.

The Generator is equipped with electric start and with low fuel consumption, in fact it consumes only 4.5 litres/hour at 75% of the load for an autonomy of up to 20 hours of operation. In addition it is equipped with automatic starting via the ATS panel, which allows it to be switched on independently in the event of a blackout.

### ATS AUTOMATIC START PANEL

The VISA BD 20 CK generator is designed for connection to ATS automatic starter panel. Thanks

to which you will no longer have to worry about blackouts, since, in the event of a power failure from the mains, this panel is able to turn on the group and will allow you to continue your business without losing your work data.
