

ECOFLOW DISTRIBUTION PANEL

Product price:

490,98 € tax excluded

Product description:

ECOFLOW DISTRIBUTION PANEL

The **EcoFlow distribution panel** allows you to control system power, sharing it securely with each of your devices.

Setting the power could not be easier with simple and intuitive installation. All wires included in the kits are color coded to ensure quick and easy installation.

Customize your wattage with changeable fuses. The user decides how to share the power, because 6 of the DC fuses can be customized and managed via the panel or the EcoFlow application .
