## **Product description:**

### UNIMEC KIT DUMPER 600KG

Unimec offers a hydraulic dump truck with a load capacity of 600 kg. The Unimec Kg 600 dump truck is designed to be mounted on a minitransporter or other flatbed vehicle, allowing easy transport and unloading of heavy materials such as sand, gravel, soil and construction waste.

The dump truck is equipped with a hydraulic cylinder, a hydraulic power pack, a control unit, and a tipping platform with a load capacity of 600 kg. The hydraulic power unit is powered by a 12-volt battery and is controlled by a wired remote control, which allows the operator to easily tip the platform and unload material.

The Unimec Kg 600 dump truck is easy to install and can be mounted on a wide range of mini-transporters and other flatbed vehicles. It is an economical solution for those who need to transport heavy loads and want to streamline the unloading process.

Overall, the Unimec Kg 600 dump truck is a reliable and efficient hydraulic unloading system that can improve the efficiency and safety of material handling operations.
