Product description:

UNIMEC AGRICULTURAL FLATBED 400KG

Agriculture is a sector that requires specific solutions for the transport of materials and equipment. Unimec, an Italian company specializing in the production of mechanical components and systems, offers a wide range of agricultural flatbeds, including the "Agri" series, designed specifically for agriculture.

Among the solutions offered by Unimec, the Agri Agricultural Flatbed Kg 400 is an interesting option for those looking for a high-quality and resistant product capable of supporting heavy loads. This flatbed is made of high-strength steel and is available in different sizes and configurations, with a load capacity of 400 kg.

The Agri Agricultural Flatbed Kg 400 can be mounted on tracked mini-transporters or other suitable vehicles, offering great flexibility of use in the agricultural field. Thanks to its robustness and resistance, it can be used to transport a wide range of materials, such as crops, tools, fertilizers, and equipment.

Another great feature of the Unimec Agri Agricultural Flatbed Kg 400 is its customizability. In fact, Unimec can provide customized solutions based on customers' specific needs. This means that the flatbed can be modified in size, shape, or configuration to meet the customer's specific requirements.

In conclusion, the Agri Agricultural Flatbed Kg 400 by Unimec is a reliable and customizable solution for the transport of materials in the agricultural field. Its high strength and flexibility make it an interesting option for those looking for a high-quality and resistant product.
