

# Vitrifrigo Water Pipe

**Product price:**

**11,00 € tax excluded**

## **Product description:**

Transparent armored PVC pipe

Transparent PVC pipe with metal armor Diam. 25 mm (1")

Our pipes are the ideal solution to ensure maximum reliability and visibility on board boats.

Made of high quality materials, our transparent PVC pipe offers a clear view of the water flow, allowing optimal control of the hydraulic system on board.

Designed to withstand the most extreme marine conditions, the pipe is highly flexible and robust, ensuring durability and reliable performance.

The transparency of PVC also allows you to easily monitor any accumulations or blockages, simplifying maintenance operations.

This model of PVC pipe has an internal metal armor of 25 mm diameter.

Are you looking for a air conditioner for boats? [HERE](#) you can find the area dedicated to Vitrifrigo marine air conditioners or other specialized brands.
