Product description:

VITRIFRIGO C85iAX STAINLESS STEEL FRIDGE-FREEZER WITH ACCUMULATION PLATE.

VITRIFRIGO C85iAX REFRIGERATOR STAINLESS STEEL FRIDGE-FREEZER WITH ACCUMULATION PLATE

Vitrifrigo C85iAX is a stainless steel with a total capacity of 90 litres divided between the freezer and refrigerator part, complete with Steelock OCX2 system.

With a single fixing profile it is possible to position the refrigerator in both the door outside and door inside version by simply moving the profile itself, which also has a concealed slot that optimises perimeter ventilation.

The upper top also features an element that allows the 'Vent Position', i.e. the possibility of leaving the door ajar when not in use, thus preventing the formation of mould and unpleasant odours.

Vitrifrigo C85iAX is equipped with a safety lock and a Steelock OCX2 door locking system, which prevents the door from opening accidentally while the vehicle is being driven. Designed to be highly energy efficient, with an A+ energy efficiency class and low power consumption. This makes it ideal for use in recreational vehicles, where energy conservation is important.

In the upper top of the Vitrifrigo C85iAX there is a 'Vent Position' element, which allows the door to be left ajar when not in use, thus preventing the formation of mould and unpleasant odours.

the Vitrifrigo C85iAX is an excellent choice for anyone looking for a compact and reliable refrigerator for small spaces. With a sleek design and advanced technology, this refrigerator offers excellent performance and quality food preservation.

Refrigeration systems with a storage evaporator are a good solution for cases where energy is not always available. Storage plates have the ability to 'store' the cold needed to cool the refrigerated compartment for many hours in the absence of energy sources.

TECHNICAL CHARACTERISTICS VITRIFRIGO C85iAX

Total capacity: 90 l
Freezer capacity: 12.8 l
Power supply: 12/24Vdc
Nominal consumption: 45 W
Reversible door: yes
Storage plate: yes
Total width: 548 mm
Total depth: 462 mm
Total height: 805 mm
Net weight: 29 kg
