Product description:

Whisper WP Sine 12V/1000W Inverter

Whisper WP Sine 12V/1000W is a sine wave inverter that ensures the operation of electrical devices up to 1000W powered by a 12V battery.

The compact and lightweight design makes the inverter ideal for use in camping, boating, cars or other places where a portable power source is needed. The Whisper WP 12V/1000W can be powered by a 12 V battery and offers a continuous output of 1000 W. This means that you can safely and reliably power many types of electrical devices, including laptops, cell phones, televisions and other similar items.

Whisper inverter uses pure sine wave technology, which is ideal for devices that require a stable and reliable supply. It has a number of protection features, including overheat protection, overcurrent protection and short-circuit protection. This means that the Whisper WP 12 V/1000 W inverter can provide safe and reliable power without risk to the user or connected devices.

One of the main features of the inverter is its pure sine wave technology. This means it provides a current signal that perfectly follows the sine wave motion, minimizing the risk of damaging sensitive connected electronic devices. Whisper WP 12 V/1000 W ensures consistent and stable current quality, which means that devices powered by Whisper inverter will always operate reliably.

In essence, it converts battery electricity to AC current for household use and runs appliances on AC current independently. For applications such as: recreational vehicles, caravans, recreational boats, vacation homes, and trucks.

Technical characteristics Whisper WP Sine 12 V/1000 W

Peak power: 2000 W

Continuous power: 1000 W
Output voltage: 230 V
Output frequency: 50 Hz
Input voltage: 12 VDC
AC Sockets: 1 x Schuko
DC battery connection: M6 threaded screw
Operating ambient temperature: -20°C / 55°C
Max. relative humidity: 95%, non-condensing
Cooling: Forced ventilation
Width: 175 mm
Length: 323 mm
Height: 90 mm
Weight: 2.9 kg

Product features:

Frequency (Hz): 50
Output voltage (V): 230
Length (mm): 175
Width (mm): 323
Height (mm): 90
Input voltage (V): 12
Kind of wave: Pure Sinusoidal
Continuous power (W): 1000
Weight (Kg): 2.9
