Product description:

WHISPER PICCOLO18 M-GV18 SINGLE-PHASE MARINE GENERATOR 18KVA INVERTER STAGE V

WHISPER PICCOLO18 M-GV18 Single-phase marine generator with Kubota V1505 StageV diesel-powered engine delivers 18KVA power, complete with INVERTER controller.

The WHISPER PICCOLO18 marine generator is designed with a soundproof cabin that makes it supersilenced. Excellent accessibility to the interior compartment makes maintenance work easier even with the generator set installed in cramped quarters.

WHISPER PICCOLO18's rugged and durable construction ensures durability even in harsh marine environments, while the intelligent control system provides superior energy efficiency, reducing fuel costs and exhaust emissions.

With the electrical stabilizer of Inverter technology working at very low distortion, WHISPER M-GV18 delivers constant current loads without voltage spikes that could damage electrical and electronic devices. Further advantage is to work with variable motor revolutions, depending on the need for current to be delivered, optimizing fuel consumption, gas emission and wear and tear of mechanical parts to the best advantage.

The Whisper M-GV18 is the quietest marine generator on the market. It is perfect for boats and yachts that need on-board power without disturbing the marine environment
the Whisper PICCOLO18 M-GV18 is a quiet and versatile 18 kVA diesel generator that is perfect for a wide range of applications. Its ultra-quiet operation, built-in Genverter, compact size, reliability, and durability make it an excellent choice for homeowners, businesses, and

organizations that need reliable backup power.

PMG INVERTER

WHISPER PICCOLO18 is equipped with an inverter which intervenes to keep the output voltage constant, regardless of the variations in the input voltage and environmental conditions. This is especially important in sensitive applications, such as computer power systems or laboratory instruments, where even a small voltage change can cause damage to the system.

STAGEV EMISSION REGULATIONS

The WHISPER PICCOLO18 M-GV18 marine generator is equipped with a "mobile" STAGEV engine, as required by European Regulation 2016/1628. These new engines make it possible to exponentially reduce the particulate and nitrogen oxide emissions released by the generator into the environment, and guarantee a 200% reduction in environmental impact compared to standard engines.

Technical characteristics WHISPER PICCOLO18 M-GV18

Phase type: Single-phase
Maximum power: 15 KW
Continuous power: 18 KVA
Fuel: Diesel
Voltage: 230 V
Frequency: 50 Hz
Engine: Kubota V1505
Emissions standards: Stage V / EPA / Tier 4
Number of cylinders: 4
Displacement: 1489 cc
Engine speed: 2000 / 2400 rpm Adjustable
Fuel consumption: 5.6 l/h at 100% load
Acoustic power: 57 dBA @ 7 m
Voltage regulator: Inverter
Length x width x height (group): mm 990 x 560 x 705
Length x width x height (PMG): mm 568 x 347 x 198
Dry weight (group + PMG): 230 + 20 Kg

Product features:

Phase: Single phase

Maximum power single phase (KW): 15

Continuous power single phase (KVA): 18

Fuel: Diesel

Frequency (Hz): 50

Voltage (V): 230

Engine: Kubota V1505

Emissions Regulations: Stage V / EPA / Tier 4

Engine rpm (rpm): 2000 / 2400 Adjustable

Engine capacity (cm³): 1489

Number cylinders: 4

Cooling: Water

Consumption (L/h): 5.6 l/h at 100% load

Acoustic pressure: 57 dB(A) at 7 m

Length (mm): 990

Width (mm): 560

Height (mm): 705

Dry weight (Kg): 230

Silenced: Yes

Super silenced: Yes

Product type: Generator

Voltage regulator: Inverter

Engine manufacturer: Kubota
