

# TELAIR TIG 3100G GAS VEHICULAR GENERATOR 2,7KW SINGLE PHASE INVERTER STAGE V

Product price:

**4,055.00 € tax excluded**

## Product description:

### TELAIR TIG 3100G GAS VEHICULAR GENERATOR 2,7KW SINGLE PHASE INVERTER STAGE V

TELAIR TIG 3100G Single-phase vehicular generator with YAMAHA MZ 175 StageV gas engine, delivers 2,7KW power, complete with INVERTER voltage regulator.

The TELAIR TIG 3100G uses state-of-the-art inverter technology, which allows for a perfect sine wave without voltage spikes or current surges. This makes the generator suitable for all types of electrical equipment, including use with more sensitive equipment such as computers, electronic appliances and precision instruments.

The remote control panel, with a modern design and equipped with a graphic display, provides the user with all information regarding generator operation, oil level control, operating temperature, and current consumption with automatic engine shutdown in case of out-of-standard values. It allows selection of generator operation between manual and automatic (in case it is also used as a battery charger) and also has a BOOST button that can be used when a temporary power increase is needed for a very high electrical load.

TELAIR TIG 3100G is also equipped with a special interface that allows the new Teleco-Hub App to remotely turn on, turn off, and control the generator via an iOS OR Android smartphone.

## STAGEV EMISSIONS REGULATIONS

The TELAIR TIG 3100G Vehicular Generator is equipped with STAGEV "mobile" motorization, as required by European Regulation 2016/1628. These new motorizations make it possible to exponentially reduce the particulate and nitrogen oxide emissions delivered by the generator to the environment, and ensure a 200% reduction in environmental impact compared to standard

motorizations.

### **TECHNICAL CHARACTERISTICS TELAIR TIG 3100G**

Phase Type: Single Phase  
Maximum Power: 2.7 KVA / 2.7 KW  
Fuel: LPG  
Voltage: 230 V  
Frequency: 50 Hz  
Engine: YAMAHA MZ 175  
Emission standard: Stage V  
Number of cylinders: 1  
Engine RPM: 2700 / 3900 rpm  
Fuel Consumption: 0.4 Kg/h  
Acoustic power: 54 dBA @ 7 m  
Voltage regulator: Inverter  
Length: 570 mm  
Width: 390 mm  
Height: 275 mm  
Net Weight: 53 kg

### **Product features:**

Phase: Single phase  
Maximum power single phase (KW): 2.7  
Fuel: LPG  
Frequency (Hz): 50  
Voltage (V): 230  
Engine: Yamaha MZ175  
Emissions Regulations: Stage 5  
Engine rpm (rpm): 2700 / 3900  
Starting system: Elettrico  
Gas consumption (Kg/h): 0.4  
Acoustic pressure: 54 ÷ 58 dB(A) at 7 m  
Length (mm): 570  
Width (mm): 390  
Height (mm): 275  
Dry weight (Kg): 53
