Product description:

AUTOCLIMA FRESCO 3000 TOP 24V VEHICULAR AIR CONDITIONER 950W

AUTOCLIMA FRESCO 3000 RT is a rooftop air conditioner with a cooling power of 950 W, with space-saving dimensions that allow installation even when space is limited.

Due to its space-saving dimensions, AUTOCLIMA FRESCO 3000 RT is particularly suitable for vans. It can be installed on the roof even if the solar panel, dish and a luggage box are already mounted there. However, this camping rooftop air conditioner is also excellently suited for caravans and campers, as well as liners.

One of the strengths of the AUTOCLIMA FRESCO 3000 RT is its ability to ensure quiet operation. Thanks to the optimized acoustic design and high-quality materials used in its construction, this system minimizes noise during use, ensuring a quiet and comfortable environment for passengers.

The AUTOCLIMA FRESCO 3000 RT is also equipped with an advanced air filtration system, which effectively captures harmful particles in the outdoor environment. This helps create a healthy and clean indoor environment, protecting the health and well-being of passengers.

AUTOCLIMA FRESCO 3000 RT has outlets that can be individually oriented so that fresh air is distributed where it is needed. Due to its very small and flat structure, the internal air distributor does not obstruct the passage in the slightest. During operation, it dehumidifies the recirculated air, thus contributing to a pleasant room climate even with minimal temperature differences.

TECHNICAL CHARACTERISTICS AUTOCLIMA FRESCO 3000 RT

Cooling capacity: 950 W

Input voltage: 12V / 24V

Input frequency: 50 Hz

Evaporator flow rate: 450 m3/h
Cooling airflow: 3250 BTU/h
Nozzles: 2
Compressor: Danfoss BD350GH
Number of speeds: 6
Refrigerant: 134a
Remote control: Yes
Width: 605 mm
Length: 865 mm
Height: 358 mm
Net weight: 30 kg
