#### **Product description:**

HYUNDAI RIDER POLAR Ride-on Lawnmower Cutting deck 61 cm StageV

The Hyundai Rider Polar is a Ride-on Lawnmower equipped with a StageV gasoline engine featuring an exceptional cutting capacity, perfect for work areas up to 2600m<sup>2</sup>.

The Hyundai Rider Polar offers an excellent lawn mowing experience for garden owners of all sizes. This powerful and reliable lawn mower is carefully designed to ensure optimal results and a comfortable user experience.

With an ergonomic and functional design, Hyundai Rider Polar offers a comfortable and effortless ride. Equipped with a powerful 196 cc StageV gasoline engine, this mower can easily handle large lawns up to 2600 m<sup>2</sup>. Its rugged and durable construction is built to last, ensuring consistent and reliable performance.

One of the distinguishing features of the Hyundai Rider Polar is its ease of maneuverability. Thanks to its small turning radius, this rider mower can move nimbly around obstacles in the garden, such as trees or shrubs. This makes the lawn mowing process more efficient and reduces the time and effort needed to complete the job.

The Ride-on Lawnmower cutting system is highly efficient and delivers flawless cutting results. Equipped with a precision blade, this Ride-on Lawnmower offers an even and precise cut, leaving the lawn well groomed and aesthetically pleasing. In addition, you can adjust the cutting height according to personal preference, allowing you to achieve the desired result.

This Ride-on Lawnmower is equipped with advanced safety features, such as an emergency stop system and overload protection, which protect both the user and the machine during use.

Hyundai Rider Polar is equipped with a practical and comfortable adjustable seat, which ensures an ergonomic posture while driving. There is also a large collection basket for grass clippings, which makes cleaning up after mowing the lawn a quick and easy task.

#### EMISSION REGULATIONS STAGEV

Hyundai Rider Polar is equipped with "mobile" STAGEV engines, as required by European Regulation 2016/1628. These new engines enable exponential reductions in particulate and nitrogen oxide emissions delivered by the generator to the environment, and ensure a 200 percent reduction in environmental impact compared to standard engines.

#### TECHNICAL CHARACTERISTICS HYUNDAI RIDER POLAR

Engine 196 cc - 4.8 KW / 6.5 HP

Fuel: Gasoline
