

VITRIFRIGO DCW62 WINE CELLAR FOR YACHT AND BOATS 62l

Product price:

540,40 € tax excluded

Product description:

VITRIFRIGO DCW62 WINE CELLAR FOR YACHT AND BOATS 62l

Vitrifrigo DCW62 is an extremely compact and reliable wine cellar ideal for wine storage aboard boats and yachts.

With a capacity of 62 liters, it can accommodate up to 20 standard bottles, ensuring excellent wine storage in a small space. The sleek satin-finished stainless steel design, combined with quality insulation materials and tinted glass, offers maximum protection against harmful UV rays.

The temperature inside the wine cellar can be easily adjusted thanks to the digital thermostat, allowing white, red and sparkling wines to be kept at an ideal temperature between +4°C and -18°C. Stainless steel shelves with different contours offer flexible bottle arrangement in a horizontal position, perfect for resting bottles before opening.

To ensure stability in any situation, the Vitrifrigo DCW62 is equipped with adjustable feet. Power can be supplied via either 12/24Vdc or 100-240Vac 50/60Hz, providing flexibility in on-board power options. In addition, the low power consumption of 0.40 kWh/24h at an internal temperature of 8°C and ambient temperature of 25°C allows energy conservation without compromising performance.

Vitrifrigo DCW62 is equipped with an enhanced LED system for elegant and efficient interior lighting, allowing a clear view of the bottles. Special thermal glass ensures perfect internal temperature sealing, protecting wines from temperature changes and unwanted changes.

With compact dimensions of 430 mm wide, 650 mm high and 470 mm deep, the Vitrifrigo DCW62 easily fits into the limited space of boats without compromising storage capacity.

TECHNICAL SPECIFICATIONS VITRIFRIGO DCW62

Total capacity: 62 l
Bottle capacity: 18 (diameter mm.76 x height mm.315)
Power supply: 12/24Vdc - 100-240Vac 50/60Hz
Consumption: 0.40 kWh/24h
Internal temperature range: +4°C / +18°C
Reversible door: no
Width: 430 mm
Depth: 470 mm
Height: 650 mm
Net weight: 21 kg

Product features:

Length (mm): 470
Width (mm): 430
Height (mm): 650
Dry weight (Kg): 21
Feed Type: 12/24Vdc - 100-240Vac 50/60Hz
Capacity of the refrigerator (L): 62
Reversible door: no
Internal temperature: +4°C / +18°C
Consumo: 0,20 kWh/24h (con temperatura interna di 8°C e temperatura ambiente di 25°C)
Bottle capacity: 18 (diameter mm.76 x height mm.315)
