Product description:

VITRIFRIGO TL43 COCKPIT REFRIGERATOR-FREEZER

The Vitrifrigo TL43 is a cockpit fridge-freezer with a total capacity of 40 litres specifically designed for Volvo truck trucks.

The Vitrifrigo TL43 is a 40lt cockpit fridge-freezer specifically designed for Volvo truck trucks. This device is ideal for truck drivers who need to store fresh food and drinks during their road trips.

With its 31-litre capacity, the Vitrifrigo TL43 offers ample storage space to meet the storage needs of drivers.

It can easily accommodate bottles, cans, snacks and other food products that require refrigeration.

It also has a separate freezer compartment to keep frozen foods at the right temperature.

The Vitrifrigo TL43 is designed to be durable and reliable, so it can withstand the vibrations and stresses typical of road use.

Its compact and robust design fits perfectly inside trucks or cars, offering easy installation and convenient use.

Equipped with an advanced control system, the Vitrifrigo TL43 allows you to easily adjust the desired temperature inside the fridge and freezer.

This keeps food fresh and drinks cold throughout the journey.

The Vitrifrigo TL43 vehicle fridge-freezer is highly energy efficient, offering excellent performance without consuming too much energy.

This is especially important for truck drivers or those on long journeys who want to maximise fuel

efficiency and reduce operating costs.

In addition, the Vitrifrigo TL43 is equipped with a sealed door, which ensures an excellent seal and prevents the dispersion of cold.

This helps to maintain a constant internal temperature and prevent the entry of hot air from outside.
