Product description:

HONDA HHT36BXXB E65T Cordless brushcutter

The Honda HHT36BXXB E65T Cordless Brushcutter has an adjustable loop handle and can be used with a harness, provides balance

and control that is easy to handle. The new Brushless motor ensures efficient cutting and running times. The nylon head and harness are included.

Brushcutter has an adjustable loop handle and can be used with a harness, provides balance and control that is easy to handle. The new Brushless motor provides efficient cutting and running times. The nylon wire head and harness are included.

The HHT36BXXB E65T is a Honda cordless equipped with a high-efficiency brushless motor. The brushless motor has no brushes, so it is more efficient and durable than conventional motors.

The brushcutter Honda HHT36BXXB E65T Cordless weighs only 3.3 kg, making it easy to handle even for extended periods. The cutting system consists of a 2.4 mm diameter, 330 mm long nylon wire. The nylon wire is ideal for cutting grass, weeds and shrubs.

The brushcutter Honda HHT36BXXB E65T Cordless is equipped with a trigger control, which allows the cutting power to be adjusted as needed. IPX1 weather protection ensures that the Honda brushcutter is resistant to rain and dust.

The guaranteed noise level is 90 dB(A), which is an acceptable value for a brush cutter. The vibration level is less than 2.5 m/s², which is a low value that ensures optimal operator comfort. The Honda HHT36BXXB E65T is a versatile and reliable brushcutter suitable for a wide range of applications. It is ideal for maintaining gardens, parks and green areas.
