

Generator FullElectric EcoPower EP4596

Product description:

Generator FullElectric EcoPower EP4596 Battery energy storage system

Generator FullElectric EcoPower EP4596 energy storage system saves you money and reduces pollution

ZERO emissions, ZERO noise, ZERO liquids

FullElectric EcoPower Generator EP4596 is an energy storage system that can operate independently or in combination with solar energy, the grid and generators.

Thanks to its innovative technology, the EcoPower FullElectric EP4596 Generator guarantees zero emissions, zero noise and zero liquids, offering you a sustainable and environmentally friendly solution.

Advantages of the EcoPower FullElectric Generator

Energy saving: EcoPower FullElectric EP4596 Generator allows you to reduce your energy consumption, thanks to its ability to store energy produced from renewable sources or the electricity grid.

Reducing emissions: FullElectric Generator EcoPower EP4596 helps reduce air pollution, thanks to its zero emissions.

Flexibility: FullElectric EcoPower Generator can be used in a variety of applications, from residential to industrial.

Applications of FullElectric EcoPower Generator EP4596

FullElectric EcoPower EP4596 generator is ideal for a wide range of applications, including:

Emergency power supply: FullElettric EcoPower EP4596 generator can provide power in the event of a blackout, ensuring continuity of service.

Reactive energy compensation: FullElettric EcoPower EP4596 generator can help improve the stability of the electricity grid by compensating the reactive energy produced by inductive loads.

Exchanging with the grid: FullElettric EcoPower EP4596 generator can be used to exchange energy with the electricity grid, resulting in an economic gain.

FullElettric EcoPower EP4596 generator powered by CGM: the sustainable solution for your future

FullElettric EcoPower EP4596 generator is the ideal solution for those who want to save money, reduce pollution and use energy in a sustainable way.

Technical data FullElettric EcoPower EP4596 generator:

Rated power: 45 KVA

Storage capacity: 96 KWh

Frequency: 50 Hz

Voltage: 400 volts

Weight: 1550 kg

Dimensions: 1650x1180x1900 mm

Battery type: LINMC

Quantity: 4

Cycles @ 90%=6000

Recharge Time: 20-90%=2.45Hr/20-100%=3.10Hr

The Eco EP4596 uses LINMC battery modules, which offer long life and high reliability. LINMC modules are made of high-quality lithium-ion cells, which guarantee high power and energy efficiency.

The LINMC technology used by Generatore FullElettric EcoPower EP4596 offers long life and high reliability.

The FullElettric EcoPower EP4596 generator's ability to provide emergency power, which can ensure continuity of service in the event of a blackout.

image purely indicative.

Product features:

Phase: Three phase

Continuous power three phase (KW): 96

Continuous power three phase (KVA): 45

Fuel: Batteria

Frequency (Hz): 50

Battery type: LINMC

Length (mm): 1650

Width (mm): 1180

Height (mm): 1900

Super silenced: Yes

Weight (Kg): 1550

Recharge times: 20-90%-2.45Hr/20-100%-3.10Hr

Voltaggio: 400volt

modalità UPS: Yes
