

# NDS N-BUS SMART-IN 2000W IVT Pure Wave

Product price:

**592,91 € tax excluded**

## Product description:

NDS SMART-IN 2000W IVT Pure Wave

NDS SMART-IN 2000W IVT the ideal solution for powering your devices in campers, caravans or other recreational vehicles

The NDS SMART-IN 2000W IVT Pure Wave is an intelligent inverter with IVT function that ensures you always have the energy you need to power your devices in your motorhome, caravan or other recreational vehicle.

## IVT function: the ideal solution for preserving the battery

NDS SMART-IN The IVT (Intelligent Voltage Transfer) function enables the inverter to automatically power itself from the 230V mains when available, and switch back to battery when needed. This function makes it possible to safely connect the inverter output to the vehicle's electrical circuit, so that all sockets are always powered, leaving the inverter conveniently installed next to the services battery.

NDS 2000W SMART-IN continuous supply to power all your devices

NDS SMART-IN 2000W IVT Pure Wave has a continuous of 2000W, allowing you to power all your electronic devices, such as televisions, computers, refrigerators, etc. The peak power is 6000W, which allows you to use even energy-intensive devices, such as induction cookers or coffee machines.

Pure wave for optimal quality

The NDS SMART-IN 2000W IVT Pure Wave generates a pure wave, which is the closest waveform to that of the household power grid. This ensures optimal quality

---

## Compact dimensions and low weight NDS

NDS SMART-IN 2000W IVT Pure Wave has compact dimensions (390x270x108h mm), making it easy to install and move according to your needs.

### **Main technical characteristics NDS SMART-IN 2000W**

Input voltage: 12V

Continuous power: 2000W

Peak power: 6000W

Output voltage: 230Vac

USB output: 5V 2.1A

Dimensions (mm): 390x270x108h

Cables included: 35mm<sup>2</sup> length 80cm

NDS SMART-IN 2000W IVT Pure Wave is the intelligent inverter that always provides you with the energy you need to power your devices in campers, caravans or other recreational vehicles. The IVT function, 2000W continuous, pure wave and compact dimensions make it the ideal solution for your needs.

Looking for an inverter with different technical characteristics? [HERE](#) you can find the area dedicated to NDS SMART or other specialized brand inverters.

Images and technical data are not binding and may be subject to revision by the manufacturer

### **Product features:**

Frequency (Hz): 50

Output voltage (V): 230

Length (mm): 390

Width (mm): 270

Height (mm): 108

Input voltage (V): 12

Kind of wave: Pure Sinusoidal

Continuous power (W): 2000

Peak power: 6000W
