## Product description:

### VITRIFRIGO C130LX OCX2 FRIDGE-FREEZER STAINLESS STEEL

VITRIFRIGO C130LX OCX2 fridge-freezer: elegant design and advanced functionality

Timeless elegance: VITRIFRIGO's stainless steel refrigerator-freezer series gets a makeover with an eye-catching design.

The new square door in satin-finished stainless steel and the top with a high-gloss finish lend a modern touch to any kitchen.

Unprecedented flexibility: The C130LX OCX2 from VITRIFRIGO offers maximum installation flexibility thanks to the unique fixing profile which allows the refrigerator to be positioned either flush or concealed. In addition, the "Vent Position"

allows the door to be left ajar when the C130LX OCX2 refrigerator is not in use, preventing the formation of mould and unpleasant odours.

State-of-the-art technology: The C130LX OCX2 from VITRIFRIGO is equipped with a cold storage evaporator (models with code AX) which allows it to be used even when the engine is switched off. The "Self Venting Frame" slot system improves ventilation around the refrigerator, while the "Steelock" closure guarantees maximum security and tightness.

The VITRIFRIGO C130LX OCX2 fridge-freezer is the ideal solution for those who want an elegant, functional and reliable product.

With its 130 litre capacity and refined design, it is perfect for boats, motorhomes and caravans.
