Product description:

VITRIFRIGO IM CL OCX2 REFILL ICE MAKER

The VITRIFRIGO IM CL OCX2 REFILL offers a versatile solution for ice production. Available in both the HYDRO version for the boat's water connection and the REFILL version, which can be used with mineral water via an internal water tank.

This innovative device features the Steelock system of VITRIFRIGO IM CL OCX2, with a unique fixing profile that allows flexible configuration with fully recessed door (Door Inside) or partially recessed door (Door Outside).

The Steelock handle is equipped with a vent position, ensuring proper ventilation during periods of inactivity.

The new water containment tray is designed for easy extraction, filling and washing, particularly useful in the REFILL version. The waterproof LED thermostat offers easy adjustment, with temperature options down to -18°C and an electronic water level sensor for the REFILL version.

Optionally available is the UV-C sanitising system, which purifies the water of bacteria, ensuring a hygienic and safe experience.

With the VITRIFRIGO IM CL OCX2 REFILL ice maker, enjoy fresh, crystal-clear ice anytime, without worries.

The VITRIFRIGO IM CL OCX2 REFILL offers a versatile solution for ice production.

This innovative device is available in HYDRO or REFILL versions.

Its tray makes it easy to use and maintain, while the adjustable thermostat ensures optimal performance.
