### **Product description:**

#### VITRIFRIGO VF35P PORTABLE FRIDGE-FREEZER

The VITRIFRIGO VF35P, belonging to the renowned Vfree series, is a portable and special installation fridge-freezer designed to meet space and versatility needs. With a total capacity of 35 liters, this appliance offers ample space to store food and beverages during travels on yachts and boats or in other contexts.

With a net weight of 19.5 kg, the VITRIFRIGO VF35P is sturdy yet easy to transport and install. Its flexible power supply, compatible with 12/24Vdc and 100-240Vac at 50/60Hz, makes it suitable for various power sources, ensuring its functionality wherever you are. The nominal energy consumption is 55W, ensuring efficient operation.

The dimensions of the VITRIFRIGO VF35P, with a total width of 410 mm, total height of 440 mm, and total depth of 680 mm, make it suitable for limited spaces without sacrificing internal capacity.

Despite its D energy class, the VITRIFRIGO VF35P is designed to offer optimal performance with reasonable energy consumption.

The internal temperature range varies from +10°C to -22°C, allowing precise preservation of food and beverages at desired temperatures. The intuitive control panel facilitates temperature and other settings adjustments according to your specific needs.

The VITRIFRIGO VF35P offers convenient accessibility and organization of food. The internal LED light improves visibility inside, making it easier to find items even in the dark.

With its dual power capability, the VITRIFRIGO VF35P can operate on both direct current (12/24Vdc) and

alternating current (100/240Vac), ensuring maximum operational flexibility. These features make it ideal for applications on yachts, boats, and other special installations where space is limited but preservation needs are high.

In summary, the VITRIFRIGO VF35P is the perfect solution for those seeking a portable and versatile fridge-freezer, suitable for special installations such as those on yachts and boats. With its advanced features and reliability, the VITRIFRIGO VF35P stands out as an essential companion for the preservation of food and beverages in marine environments and other situations where space is a luxury.

### **Technical Specifications VITRIFRIGO VF35P:**

Total capacity litres: 35  
Net weight: 19.5 Kg  
Power supply: 12/24Vdc - 100-240Vac 50/60Hz  
Nominal consumption: 55W  
Total width: 410 mm.  
Total height: 440 mm.  
Total depth: 680 mm.  
Energy class: D  
Internal temperature range: +10°C / -22°C

### **Product features:**

Length (mm): 680  
Width (mm): 410  
Height (mm): 440  
Dry weight (Kg): 19.5  
Feed Type: 12/24Vdc - 100-240Vac 50/60Hz  
Product type: Portable and special installation fridge-freezers  
Capacity of the refrigerator (L): 35  
Energy class: D

Nominal consumption: 55W

Internal temperature: +10°C / -22°C
