### **Product description:**

#### VITRIFRIGO VFD75 PORTABLE FRIDGE-FREEZER

The VITRIFRIGO VFD75 from the Vfree Plus series is a portable fridge-freezer ideal for yachts, boats, and special installations, offering a total capacity of 75 liters. With a versatile design, it is suitable for both maritime and land use, ensuring efficient storage solutions.

This VITRIFRIGO VFD75 product is powered by a wide range of sources, including 12/24Vdc direct current and 100-240Vac 50/60Hz alternating current, offering flexibility in any situation. With a nominal consumption of 60W, it ensures excellent efficiency, allowing energy savings.

The overall dimensions of the VITRIFRIGO VFD75 are remarkable: 937 mm width, 465 mm height, and 535 mm depth, ensuring ample storage space without compromising portability.

The F energy class and the internal temperature range from +20°C to -20°C ensure optimal food preservation, keeping them fresh and safe.

The LCD digital control panel Total Control allows easy access to all refrigerator functions, while the included remote control allows for convenient management from your smartphone, offering total control even at a distance. The presence of internal LED light improves visibility inside the fridge and helps reduce consumption.

The Double system is included as standard, providing a cable for power through the cigarette lighter socket and an external power supply, ensuring maximum flexibility of use. Additionally, additional options such as the Super kit, the Max protection kit for outdoor protection, and the Solar kit for power through solar are available.

Ultra-resistant steel sliding guides offer increased durability over time, while the wire basket (only for VFD series) allows for better food organization. The VITRIFRIGO VFD75, you get an excellent storage solution, ideal for meeting needs at sea and on land, ensuring reliability and versatility.

### **Technical Specifications VITRIFRIGO VFD75:**

Total capacity litres: 75

Net weight: 25.6

Power supply: 12/24Vdc - 100-240Vac 50/60Hz

Nominal consumption: 60W

Width: 937 mm.

Height: 465 mm.

Depth: 535 mm.

Energy class: F

Internal temperature range: +20°C / -20°C

Looking for a cockpit refrigerator with different technical characteristics? Here you can find the full range VITRIFRIGO or other specialized brands.

### **Product features:**

Length (mm): 535

Width (mm): 937

Height (mm): 465

Dry weight (Kg): 25.6

Feed Type: 12/24Vdc - 100-240Vac 50/60Hz

Product type: Portable and special installation fridge-freezers

Capacity of the refrigerator (L): 75

Energy class: F

Nominal consumption: 60W

Internal temperature: +20°C / -20°C
