### Product description:

#### VITRIFRIGO VFT60 PORTABLE FRIDGE-FREEZER

The VITRIFRIGO VFT60, part of the renowned Vfree Plus series, is a portable refrigerator-freezer ideal for special installations, perfect for vessels such as yachts and boats.

With a total capacity of 60 liters, this product offers a compact and versatile solution for storing food and beverages in marine environments.

With a net weight of 18.7 kg, the VITRIFRIGO VFT60 is lightweight and easy to transport, while still providing ample storage capacity. Thanks to its flexible power options, it can operate on continuous voltage of 12/24Vdc or household power of 100-240Vac at 50/60Hz, making it suitable for various usage scenarios.

Featuring a nominal consumption of 60W and an energy class F, the VITRIFRIGO VFT60 offers energy efficiency without compromising performance. Its internal temperature range, from +20°C to -20°C, allows for keeping food fresh or frozen as needed.

The VITRIFRIGO VFT60 is equipped with a digital LCD control panel that provides full access to all its functions, ensuring total control over the refrigerator's internal environment. Additionally, fridge functions can be managed directly from your smartphone with the included remote control, offering an extra level of convenience and control.

The presence of an internal LED light not only improves visibility inside the refrigerator but also contributes to reducing energy consumption. The VITRIFRIGO VFT60 comes with standard dual power, featuring a 12/24Vdc cable for the cigarette lighter and an external 100-240Vac adapter.

Optionally, the Super Energy kit is available, which includes a removable lithium-ion battery of 15600 mAh

for additional energy autonomy. The Max Protection kit provides extra protection during outdoor use, while the Solar kit offers a portable 100/200W solar panel to charge the battery.

For added convenience, the Next Gen Slides option is available, including ultra-resistant steel sliding guides to facilitate the extraction and insertion of the refrigerator (except for models VFC15 and VFD115).

In conclusion, the VITRIFRIGO VFT60 is a versatile, efficient, and elegant solution for storage needs on vessels and in other special situations, offering total control, intelligent energy management, and a range of options to customize and optimize performance according to specific requirements.

### **Technical Specifications VITRIFRIGO VFT60:**

Total capacity litres: 60

Net weight: 18.7 Kg

Power supply: 12/24Vdc - 100-240Vac 50/60Hz

Nominal consumption: 60W

Width: 711 mm.

Height: 571 mm.

Depth: 460 mm.

Energy class: F

Internal temperature range: +20°C / -20°C

Looking for a cockpit refrigerator with different technical characteristics? Here you can find the full range VITRIFRIGO or other specialized brands.

### **Product features:**

Length (mm): 460

Width (mm): 711

Height (mm): 571

Dry weight (Kg): 18.7

Feed Type: 12/24Vdc - 100-240Vac 50/60Hz

Product type: Portable and special installation fridge-freezers

Capacity of the refrigerator (L): 60

Energy class: F

Nominal consumption: 60W

Internal temperature: +20°C / -20°C
