

VITRIFRIGO ND50 CFS GR Refrigeration unit

Product description:

VITRIFRIGO ND50 CFS GR REFRIGERATION UNIT

The VITRIFRIGO ND50 CFS GR refrigeration unit is the pinnacle of refrigeration technology, offering superior performance and advanced design to keep food fresh in any environment, be it marine or terrestrial.

Refrigeration units are available following verification of compatibility with vessel dimensions and required power. Contact us for more information.

The VITRIFRIGO ND50 CFS GR technology is the beating heart of this unit, allowing it to maintain refrigerator compartments of up to 300 liters and freezer compartments of up to 100 liters at optimal temperatures for food preservation. Its reliability and versatility make it the preferred choice among boating and camping enthusiasts.

Specially designed for condensation with an external heat exchanger, it is perfect for marine applications where space is precious. Its compact dimensions and intelligent design seamlessly integrate without compromising performance.

Standard features include 12/24Vdc power supply without quick couplings, but to best suit your needs, we also offer additional options such as power supply at 12/24Vdc - 100-240Vac 50/60Hz with quick couplings.

Measuring 285 mm wide, 160 mm high, and 170 mm deep, it easily fits into tight spaces. And for even easier installation, optional extension tubes are available.

In conclusion, the VITRIFRIGO ND50 CFS GR is the perfect choice for those seeking high performance and reliability in mobile and marine refrigeration. With its advanced technology

and construction quality, it ensures food freshness wherever you go, making it ideal for adventure enthusiasts.

Technical Specifications VITRIFRIGO ND50 CFS GR:

- Standard equipment: 12/24Vdc without quick couplings
- Optional equipment: 12/24Vdc - 100-240Vac 50/60Hz with quick couplings
- Width: 285 mm
- Height: 160 mm
- Depth: 170 mm

VITRIFRIGO ND50 CFS GR

Product features:

Length (mm): 170

Width (mm): 285

Height (mm): 160

Product type: Unità refrigerante

Standard equipment: 12/24Vdc without quick couplings

Optional equipment: 12/24Vdc - 100-240Vac 50/60Hz with quick couplings
