Product description:

VITRIFRIGO DW250 OCX2 BTX FRIDGE-FREEZER

The VITRIFRIGO DW250 OCX2 BTX is a modern double-design refrigerator-freezer with advanced features. Belonging to the DW OCX2 series by VITRIFRIGO, it offers an upper compartment for the refrigerator and a lower one for the freezer, both made of high-quality 316 stainless steel. With a total capacity of 232 liters, including 157 liters in the upper compartment and 75 liters in the lower one, it provides ample storage space to organize food neatly.

The new OCX2 series by VITRIFRIGO DW250 OCX2 BTX features a refreshed design characterized by a squared satin stainless steel door and a top with glossy finishes, giving the product an elegant and modern appearance. Versatility is ensured by the unique mounting system, allowing the refrigerator to be positioned as both a door outside and a door inside, thus providing installation flexibility. Additionally, the mounting profile of the VITRIFRIGO DW250 OCX2 BTX is equipped with a disappearing groove that optimizes perimeter ventilation and prevents the formation of mold and unpleasant odors.

Among the advanced features of the VITRIFRIGO DW250 OCX2 BTX are the "Steelock" closure, ensuring a perfect seal, and the LED thermostat, enabling precise temperature control. The Steelock handle is designed with a vent position to promote ventilation during periods of non-use. The new "Venting Frame" latching system promotes better air circulation and increases refrigeration efficiency, while the sturdy drawers offer ample space to organize food neatly. All models in the drawer series are made of 316 stainless steel, ensuring durability and resilience over time.

Furthermore, the presence of an LED light inside the refrigerator ensures optimal illumination, making it easier to find food even at night. With reduced nominal energy consumption and various power options, including 12/24Vdc and bivalent control unit 12/24Vdc - 100-240Vac

50/60Hz,

the VITRIFRIGO DW250 OCX2 BTX is ideal for both domestic and commercial use.

Thanks to its combination of style, functionality, and reliability, it represents an excellent choice for those seeking a high-quality refrigerator-freezer.

Technical Specifications VITRIFRIGO DW250 OCX2 BTX:

Total capacity litres: 232

Upper compartment capacity litres: 157

Lower compartment capacity: 75 litres

Net weight: 67 Kg.

Upper compartment power supply (A): 12/24Vdc (also available with bivalent control unit 12/24Vdc - 100-240Vac 50/60Hz)

Lower compartment power supply (B): 12/24Vdc (also available with bivalent control unit 12/24Vdc - 100-240Vac 50/60Hz)

Nominal consumption upper compartment (A): 45W

Nominal consumption lower compartment (B): 40W

Width: 682 mm.

Height: 1333 mm.

Depth: 594 mm.

Product features:

Length (mm): 594

Width (mm): 682

Height (mm): 1333

Dry weight (Kg): 67

Product type: Refrigerator

Total capacity liters: 232

Upper compartment capacity liters: 157

Lower compartment capacity litres: 75

Upper compartment power supply: 12/24Vdc (disponibile anche con centralina bivalente 12/24Vdc - 100-240Vac 50/60Hz)

Lower compartment power supply: 12/24Vdc (also available with bivalent control unit 12/24Vdc - 100-240Vac 50/60Hz)
Nominal consumption upper compartment: 45W
Nominal consumption lower compartment: 38W
