Product description:

Autoclima Air Conditioner Modula RT Rooftop Unit

Autoclima Air Conditioner Modula RT roof top unit the self-contained air conditioner for small and medium sized cabins

Autoclima A/C Modula RT roof top unit is a complete, self-contained conditioner designed for the comfort of small to medium sized cabins in various types of vehicles.

Main features Autoclima Modula RT roof unit:

Power supply: 12V/24V, compatible with most vehicles.

Cooling capacity: 3KW, ideal for air conditioning small cabins.

Electric absorption: 80A at 12V, 40A at 24V, low energy consumption.

Autonomous operation: does not require a compressor driven by the vehicle's heat engine.

Easy installation: only requires electrical connection.

Integrated components: electric compressor, condenser, filter dehydrator, expansion valve, evaporator.

Versions available: cooling only or with integrated electric heating.

Air diffuser and controls: included in delivery, for precise comfort management.

Refrigerant: R134a, environmentally friendly and safe.

Weight: 28Kg, light and compact.

Autoclima Modula RT rooftop unit offers a number of advantages:

Customised comfort: adjusts temperature and ventilation to create an ideal environment.

Energy efficiency: reduced consumption for greater savings.

Installation flexibility: suitable for different types of cabs and vehicles.

Reliability and durability: high quality components for long-lasting operation.

Technical characteristics Autoclima conditioner Modula RT Rooftop unit:

Supply voltage: 12V dc - 24V dc

Cooling Power: 3 KW

Electric absorption: (in cooling mode)80 A @ 12V - 40 A @ 24V
External (max) working temperature: 50 C Air flow (Static pressure: 0 Pa)
Refrigerant: R134a
Refrigerant quantity: 600 g
Weight: 28Kg
Height: 199 mm
Length: 651 mm
Width: 710 mm

Imagine driving your vehicle in the blazing sun. The heat is stifling, concentration drops and the journey becomes a nightmare.
Not with the Autoclima Modula RT roof unit.
