Product description:

HONDA UM536EBE2 Lawnmower with machine brake

HONDA UM536EBE2 Lawnmower with petrol engine, professional, self-propelled two-speed with 53 cm blades and Roto-stop® that allows the blades to stop safely for a perfect cut.

The HONDA UM536EBE2 lawnmower is designed for more difficult areas such as fields and roadsides.

The floating front wheels, hydrostatic control and Roto-stop® control make work easier and increase safety.

Designed for cutting tall grass, the HONDA UM536EBE2 is the ideal tool for maintaining the most demanding parks and gardens.

Operation is extremely intuitive, with a foot pedal control that allows you to choose between 4 cutting height settings on the Honda UM536EBE2 Lawnmower.

Use the foot pedal to adjust the cutting height according to grass length and desired finish.

Honda Reinforced cutting deck

The large cutting decks are made of pressed steel. Strong, lightweight and impact-resistant, have been treated to prevent rust, abrasion caused by UV and corrosion. In a nutshell,

The HONDA UM536EBE2 lawnmower is an incredibly robust machine.

Honda UM536EBE2 professional operator engines

The engine of the HONDA UM536EBE2 lawnmower has top-class features, including cast iron cylinder liners and high capacity air filters, making it ideal for professional use.

Honda UM536EBE2 Roto-stop® blade stop

The Roto-stop® allows you to stop the blades quickly and safely without shutting down the engine.

This feature is ideal if you want to remove debris or stop the blades in an emergency.
