

BM2 SUPER 16015 High Pressure Washer 160 bar

Product price:

3.250,80 € tax excluded

Product description:

BM2 SUPER 16015 HIGH PRESSURE WASHER 160 BAR

The BM2 SUPER 16015 High Washer 160 bar represents excellence in the professional washer sector. Equipped with cutting-edge technology, it is ideal for professionals who require high-quality, hydrocleaner with reliable performance.

Thanks to the ACDS2 system, the BM2 SUPER 16015 High Washer 160 bar offers advanced control with delayed shutdown and the ability to connect to a diagnostic reader, ensuring optimal operation and impeccable results. The pump, with ceramic pistons and brass head, ensures durability and long-term resistance.

The motor, operating at 1450 rpm, provides constant power, while the motor/pump coupling protection with lubricant containment system ensures system safety and longevity. The presence of a regulation valve allows easy adjustment of the washer's performance to specific cleaning needs, while the ability to dispense high detergent allows tackling even the most stubborn stains. These features make the BM2 SUPER 16015 an ideal choice for professionals seeking quality, reliability, and superior performance.

Regarding safety, several advanced systems are present, including motor thermal protection, leak control, and automatic shutdown for lack of use after 20 minutes, features that confirm the robustness and reliability of the BM2 SUPER 16015 High Washer 160 bar.

Ease of use is ensured by features such as the water supply tank with float valve, externally inspectable water filter, and storage compartment with access to valve adjustment, characteristic of the BM2 SUPER 16015.

Compact dimensions and lightweight make this washer easily transportable

and usable in any work environment, confirming the BM2 SUPER 16015 as the ideal choice for professionals seeking quality, reliability, and superior performance.

Technical Features BM2 SUPER 16015:

Phase type: Three-phase
Supply voltage: 400 V
Frequency: 50 Hz
Maximum pressure: 160 bar - 16 Mpa - 2320 psi
Maximum flow rate: 900 Lt./h
Pump: IP 47
Shutoff System: ACDS
Pump rotation: 1450 rpm
Maximum power consumption: 5 KW
Power supply: 400 V - 3ph - 50 Hz
Maximum temperature: 140 °C
Tank capacity: 35 lt
Detergent tank capacity: 3 lt
Length: 956 mm
Width: 610 mm
Height: 940 mm
Weight: 140 Kg.

Product features:

Phase: Three phase
Fuel: Diesel
Frequency (Hz): 50
Voltage (V): 400
Pump type: IP 47
Maximum output capacity (Lt/min): 900
Tank capacity (L): 35
Transportability: Wheels and handles
Length (mm): 956

Width (mm): 610
Height (mm): 940
Dry weight (Kg): 140
Feed Type: 400V - 3ph - 50Hz
maximum water temperature (°C): 140
Maximum input power (KW): 5
Pump rotation (rpm): 1450
Maximum pressure (bar-MPa-psi): 160 - 16 - 2320
Stop system: ACDS
Detergent tank: 3
