

Tecnogen Enermax KL28TSX Current Generator

Product price:

10,350.00 € tax excluded

Product description:

Tecnogen Enermax KL28TSX Current Generator

Tecnogen Enermax KL28TSX: Power, Reliability and Quietness for Your Energy Needs

The Tecnogen Enermax KL28TSX is a high-quality diesel generator set designed to provide reliable and quiet power in a variety of applications.

A powerhouse to power your business:

LPT power: 27.5 KVA

PRP power: 25 kW

Voltage: 400/230 V

Frequency: 50 Hz

Versatility for any application:

Powering construction sites, companies, events and homes in the event of a blackout.

Ideal for applications requiring quiet operation, such as hospitals, schools and offices.

A high-performance, reliable motor:

Diesel engine: guarantees robust and long-lasting performance.

RPM: 1500 rpm for efficient and quiet operation.

Liquid cooling: keeps the engine at the right temperature even under heavy-duty conditions.

A high-quality alternator:

Leroy Somer alternator: guarantees stable and precise current output.

400-230 V - 50 Hz: compatible with a wide range of devices.

Robust and silent design:

Fully hot-dip galvanised and polyester powder-coated silenced enclosure: weatherproof and wear-resistant.

Central lifting point: for easy transport by crane.

High-capacity fuel tank: ensures extended operating autonomy.

Electrowelded steel base frame: robust and stable.

Safety drip pan: to prevent accidental spillage.

Moulded support feet: for easy movement using fork lifts.

Complete electrical panel:

Electric control and control panel: manages all generator functions.

Control and protection unit: monitors operating parameters and ensures generator safety.

Watertight auxiliary sockets: protected by thermal-magnetic circuit breakers.

Magnetothermal/differential switch for the 230 V single-phase socket: guarantees safety in the event of current leakage.

General differential circuit breaker: protects the electrical system from earth faults.

Model AUS7310-16: high quality and reliable switchgear.

Choose the Tecnogen Enermax KL28TSX and you will always have the power you need, in maximum silence.

A high quality product signed Tecnogen, a leading manufacturer of electric generators, which offers you:

Power and versatility: suitable for multiple applications.

Reliability and safety: with a high-performance engine, high-quality alternator and complete electrical panel.

Reliability and safety: with high-performance engine, high-quality alternator and complete electrical panel.

Ease of operation and maintenance: with robust design and intuitive control panel.

Durability: with high-quality components and robust construction.

Quiet operation: ideal for applications requiring discrete operation.

Technical Specifications Tecnogen Enermax KL28TSX Generator:

Power KVA LPT 27.5

Power PRP 25

Engine: KOHLER KDI2504M

Frequency: 50 hz

Voltage: 400/230

Alternator: Leroy Sommer

Cooling: Liquid

engine speed: 1500 rpm

Electric voltage regulator: AVR

Silenced: yes

thermal-magnetic circuit breaker for 230 V single-phase socket

general differential switch: Model AUS7310-16

Weight: 660 Kg

Acoustic Pressure: 65db(A) 7 m

Tank(L): 75

Dimensions: 196x98x136 mm

The image is purely indicative.

Product features:

Phase: Single phase / Three phase

Maximum power three phase (KW): 25

Maximum power three phase (KVA): 27.5

Fuel: Diesel

Frequency (Hz): 50

Voltage (V): 400/230

Engine: Kohler

Engine rpm (rpm): 1500

Speed governor: Electronic

Engine capacity (cm³): 2482

Number cylinders: 4

Cooling: Water

Product dimensions (mm): 196x98x136

Fuel tank capacity (L): 75

Acoustic pressure: 65 dB(A) at 7 m

Silenced: Yes

Voltage regulator: AVR

Engine manufacturer: Kohler

Weight (Kg): 660
