Product description:

BM2 M160 HIGH PRESSURE CLEANER

The BM2 M160 High Pressure Washer 150 bar is an innovative cleaning solution designed to offer high performance and ease of use. The BM2 M160 is perfect for those looking for a reliable and powerful product for their domestic and professional cleaning needs.

The BM2 M160 features a vertical, ergonomic, and manageable structure, making it easy to move and use in various situations. The integrated rubber wheels ensure effortless mobility on different surfaces, while the integrated hose reel keeps the hose tidy and always ready for use.

The axial pump of the BM2 M160 is equipped with stainless steel pistons and a brass head, ensuring durability and resistance to corrosion. The BM2 M160 is designed to deliver optimal performance with a maximum pressure of 150 bar (16 Mpa, 2300 psi) and a maximum flow rate of 480 liters per hour.

The BM2 M160 is equipped with a total stop system (TS) that automatically stops the water flow when the trigger is released, preserving the pump's lifespan and increasing energy efficiency. Additionally, the motor's thermal protection prevents overheating during prolonged use.

The BM2 M160 is equipped with a quick connection for the water supply, making connection and disconnection easy. This makes installation and use even simpler, reducing preparation times and increasing the overall efficiency of the cleaning process.

The BM2 M160 High Pressure Washer 150 bar represents the perfect combination of power, efficiency, and ease of use.

Whether you need to clean the patio, the car, or other surfaces, the BM2 M160 will be an indispensable ally.

With its robust structure, ergonomic design, and advanced features, the BM2 M160 is an excellent choice for

those seeking quality and reliability in the high-pressure cleaning sector.

Technical Specifications BM2 M160:

Phase type: Single-phase

Frequency: 50 Hz

Voltage: 230 V

Maximum pressure: 150 bar - 16 Mpa - 2300 psi

Maximum flow rate: 480 Lt./h

Pump: Axial

Stop system: TS

Pump speed: 2800 rpm

Maximum absorbed power: 2.8 KW

Supply voltage: 230 V - 1ph - 50Hz

Maximum inlet temp: 40 °C

Pallet quantities: 24 pcs

Length: 320 mm

Width: 280 mm

Height: 850 mm

Weight: 12 Kg.

Are you looking for a hydrocleaner with different features? Here you can find the full range BM2 or other specialized brands.

Product features:

Phase: Single phase

Frequency (Hz): 50

Voltage (V): 230

Pump type: AXIAL

Maximum output capacity (Lt/min): 480

Transportability: Wheels and handles

Length (mm): 320

Width (mm): 280

Height (mm): 850

Feed Type: 230V - 1ph - 50Hz

maximum water temperature (°C): 40

Weight (Kg): 12

Maximum input power (KW): 2.8

Pump rotation (rpm): 2800

Maximum pressure (bar-MPa-psi): 150 - 16 - 2300

Stop system: TS
