Hyundai 65132 4-stroke 2.8 Kw STAGE V Petrol Generator

Hyundai 65132 Power Generator 4-stroke 2.8 Kw STAGE V Petrol: reliability for your needs

When you need reliable power, the Hyundai 65132 4-Stroke Petrol Generator is the answer. This portable model offers a maximum output of 2.8 kW, giving you the ability to power a wide range of electrical devices, during interruptions or outdoor activities.

With its efficient and reliable 212 cc, 7 HP petrol engine, the Hyundai 65132 is capable of providing a working range of up to 9 hours at rated load, thanks to its 15 litre fuel tank.

Manual starting is simple and provides greater autonomy than electric starting. The two 16A sockets allow two devices to be connected at the same time, while the 12V output allows batteries to be recharged or other low-voltage devices to be powered.

Hyundai the AVR voltage regulator protects your devices from damaging voltage spikes, while compliance with the Stage 5 standard ensures less environmental impact.

The compact and lightweight design (44 kg) makes the Hyundai 65132 Stage V easy to transport and store, while its dimensions (605 x 450 x 470 mm) make it ideal for use in a variety of situations.
