

Hyundai 65150 Silent Current Generator 1.2 Kw Inverter

Product price:

330,00 € tax excluded

Product description:

Hyundai 65150 Silent Current Generator 1.2 Kw Inverter

Hyundai 65150 power generator Inverter Silent and compact for your needs

The Hyundai 65150 current generator is a portable inverter model designed to provide reliable and quiet power in a variety of situations, from home use during power outages to outdoor activities such as camping, DIY and yard work.

Size and weight *Hyundai:*

Compact and lightweight: With dimensions of 480x255x425 cm and a net weight of only 12 kg, the Hyundai 65150 is easy to carry and store, making it ideal for use in confined spaces or frequent transportation.

Engine *Hyundai:*

Efficient displacement: The 60 cc petrol engine offers a power output of 1.74 HP, enough to power a variety of electrical devices.

Current generation *Hyundai:*

Inverter technology: Inverter technology ensures a clean and stable sine wave, ideal for powering sensitive electronic devices such as computers, smartphones and tablets.

Nominal and maximum power: The generator delivers a nominal power of 1.0 kW, which is sufficient to power energy-saving devices, while the maximum power of 1.2 kW also allows devices with an electric motor to be started.

Autonomy and noise *Hyundai:*

3-hour autonomy: With a 3-litre tank, the Hyundai 65150 offers a working autonomy of approximately 3 hours at nominal load.

Quiet: Thanks to its inverter technology and compact design, the generator produces a noise of only 58 dB at a distance of 7 metres, which is significantly lower than conventional generators, making it ideal for use in noise-sensitive environments such as campsites or gardens.

Functionality *Hyundai:*

Manual start: Manual start requires the physical effort of the user, but provides greater autonomy than electric start.

Sockets: The Hyundai generator has 1 16A socket for high-energy consumption devices and 1 12V DC socket for recharging batteries or powering other low-voltage devices.

Technical characteristics *Hyundai:*

Product dimensions: 480x255x425 cm

Net weight: 12 Kg

Displacement: 60 cc

Power: 1.74 HP

Voltage: 230 V

Frequency: 50 Hz

Nominal power: 1.0 kW

Maximum power (peak): 1.2 kW

Autonomy 50%: 3 hours

Noise level (at 7 m): 58 dB

Starting: Manual

Fuel capacity: 3 L

Sockets: 1 x 16A - 1 x 12V DC

Silenced

Stage V

Inverter

Are you looking for a *Hyundai* generator with different technical characteristics? HERE you can find the area dedicated to HYUNDAI generators or other specialized brands.

Images and technical data are not binding.

Product features:

Phase: Single phase

Maximum power single phase (KW): 1.2
Fuel: Gasoline
Frequency (Hz): 50
Voltage (V): 230
Engine: 4 stroke
Starting system: Manual
Engine capacity (cm³): 60
Product dimensions (mm): 4800 x 2550 x 4250
Fuel tank capacity (L): 3
Running time (h): 3
Dry weight (Kg): 12
