Product description:

FENZI G4 Tank 1500LT

The FENZI G4 Tank 1500LT is a diesel tank approved by the Ministry of the Interior according to the D.M. of 22/11/2017. This solution offers safe and practical diesel storage, with a capacity of 1500 liters, suitable for various uses, including private and small fleet applications.

Key Features of FENZI G4:

The FENZI G4 1500LT comes standard with a series of components and accessories that ensure optimal operation and maximum safety:

Containment basin at 110%: Provides maximum protection against potential fuel leaks, containing more than the tank's volume.

Dispensing unit: Includes an electric pump of 50 or 70 liters per minute at 220 volts, flow meters, 4-meter rubber hose, automatic nozzle, pump control panel, and lockable containment cabinet, providing everything necessary for efficient diesel dispensing.

Cartridge filter: Ensures purity of dispensed fuel, preventing introduction of impurities into the system.

Various fittings and comprehensive documentation: Each tank comes with all necessary fittings and documentation for safe installation and use.

Construction and Safety of FENZI G4:

The FENZI G4 1500LT is painted in standard green color, offering resistance to atmospheric agents and an aesthetically pleasing appearance. Some of the safety and functionality features included are:

3" quick-fill cap with lockable bronze connection: Facilitates tank filling while maintaining high security.

90% load limiting valve: Prevents tank overloading.

1"1/2 bronze vent mushroom with flame arrester: Allows safe ventilation, preventing fires.

External float visible level indicator: Easily monitors fuel level.

420 mm manhole with bolts and gasket: Provides easy internal access for maintenance.

Vacuum lifting eyes: Facilitate empty tank handling.

Bottom discharge sleeve with safety cap: For periodic cleaning.

Grounding socket and equipotentiality: Ensures electrical safety during use.

External 1" suction fitting with non-return valve: Allows safe fuel suction.

1" ball valve: For precise control of fuel flow.

1" zinc-coated steel pipe for connection to dispensing unit: Complete with flexible terminal hose in 1" R1 pipe.

Dispensing Options for FENZI G4 1500LT:

The FENZI G4 1500LT is compatible with various types of dispensers, adapting to the specific needs of each user. This tank offers a flexible and reliable solution for diesel management.

Dispensing Unit: With electric pump of 50 or 70 liters per minute at 220 volts.

Cube: With electric pump of 50 or 70 liters per minute at 220 volts.

Columns: Available in mechanical or digital versions, ideal for transferring fuel for small utilities or private fleets. Available in versions of 50, 70, 90 liters per minute, 220/380 volts.

Models Fenzi G4:

G4 E50 V

G4 E70 V

Available Accessories for FENZI G4:

For greater customization and functionality of the tank, the following accessories are available:

Sunshade: Protects the tank from direct sunlight exposure.

Distributor side cover: Adds an additional layer of protection.

Interchangeable cartridge filter kit: Facilitates filter maintenance.

Extension kit for all pump groups: Extends the dispenser's range.

OCIO digital level kit: For precise and digital monitoring of fuel level.

The FENZI G4 1500LT is designed to provide a complete, safe, and versatile solution for diesel storage and distribution. Thanks to its quality construction and ease of use, it represents an excellent choice for various applications.

This tank ensures optimal fuel management, guaranteeing safety and efficiency.
