Product description:

FENZI G4 Tank 2300LT

The FENZI G4 Tank 2300LT is a diesel tank approved by the Ministry of the Interior in compliance with D.M. of 22/11/2017. The FENZI G4 2300LT provides the ideal solution for safe and practical diesel storage, with a capacity of 2300 liters, perfect for various needs, including private use and small fleets.

Main Features of FENZI G4:

The FENZI G4 Tank 2300LT comes standard with a range of components and accessories that ensure optimal operation and maximum safety:

110% containment basin: This element ensures maximum protection against potential fuel leaks, containing more than the tank's volume.

Dispenser box: Includes a 50 or 70 lt/min electric pump at 220 Volts, a flow meter, a 4-meter rubber hose, an automatic nozzle, a pump control panel, and a lockable containment cabinet, providing everything needed for efficient diesel dispensing.

Cartridge filter: Ensures the purity of the dispensed fuel, preventing impurities from entering the system.

Various fittings and complete documentation: Each tank is supplied with all the necessary fittings and documentation for safe installation and use.

Construction and Safety of FENZI G4:

The FENZI G4 2300LT Tank is painted in standard green, offering resistance to atmospheric agents and

an aesthetically pleasing appearance.

Some of the included safety and functionality features are:

Lockable bronze quick-release 3" loading cap: Facilitates filling the cistern while maintaining high security.

90% load limiter valve: Prevents tank overloading.

1"1/2 bronze vent cap with flame-arrester mesh: Allows safe ventilation, preventing fires.

External visible float level indicator: Allows easy monitoring of fuel levels.

Manhole d. 420 mm with bolts and gasket: For easy internal access for maintenance.

Lifting lugs for empty handling: Facilitate moving the empty cistern.

Bottom drain sleeve with safety cap: For periodic cleaning.

Grounding and equipotential bonding point: Ensures electrical safety during use.

1" external suction connection with check valve: Allows safe fuel suction.

1" ball valve: For precise fuel flow control.

1" galvanized steel pipe for connection to the dispensing unit: Complete with a flexible terminal in 1" R1 hose.

Dispensing Options for FENZI G4 2300LT:

The FENZI G4 Tank 2300LT is compatible with various types of dispensers, adapting to the specific

needs of each user. This cistern offers a flexible and reliable solution for diesel management.

Available dispensers:

Box: Equipped with a 50 or 70 lt/min electric pump at 220 Volts.

Cube: Equipped with a 50 or 70 lt/min electric pump at 220 Volts.

Pillars: Available in mechanical or digital versions, ideal for transferring fuel for small users or private fleets,
with capacities of 50, 70, 90 lt/min and 220/380 Volts.

Models:

G4 E50 V

G4 E70 V

Available Accessories for FENZI G4 2300LT:

For greater customization and functionality of the tank, the following accessories are available:

Sunshade: Protects the cistern from direct sun exposure.

Side cover for the dispenser: Adds an additional level of protection.

Interchangeable cartridge filter kit: Facilitates filter maintenance.

Extension kit for all pump units: Extends the dispenser's reach.

OCIO digital level kit: For precise and digital fuel level monitoring.

The FENZI G4 Tank 2300LT is designed to provide a complete, safe, and versatile solution for diesel storage and distribution. Thanks to its construction quality and ease of use, it represents an excellent choice for various applications. This tank ensures optimal fuel management, guaranteeing safety and efficiency.
