Product description:

GYS POWERDUCTION 50LG INDUCTION HEATER 5200W

GYS POWERDUCTION 50LG: Power and precision for demanding metal work

Tired of slow, inefficient and risky heating methods? The GYS POWERDUCTION 50LG is the latest generation induction heater that revolutionises the way you work, offering you a powerful, precise and safe solution for heating metal components.

Discover its incredible advantages:

GYS POWERDUCTION 50LG Outstanding power: 5200W selectable in levels for fast and targeted heating, ideal for demanding work.

GYS POWERDUCTION 50LG Exceptional depth of penetration: Reaches the heart of the metal up to 6mm deep, ensuring even and complete heating.

Absolute safety: The absence of flame and combustion eliminates the risk of accidents and injuries, creating a safer working environment.

GYS 50LG POWERDUCTION Efficient liquid cooling: Allows working on metal parts for several minutes without interruption, ensuring maximum efficiency and productivity.

GYS Unbeatable versatility: Ideal for mechanics, maintenance and bodywork, with endless applications such as:

Unbolting tie rods, spark plugs, windscreen wipers, bolts, steering knuckles, stuck gimbals and exhaust systems.

Unbolting of glued steel or aluminium elements and straightening of bent frames (excluding HLE

steel).

GYS Unrivalled user comfort: 3 metre induction cable for working at height and 6 metre power cable for comfortable use.

GYS Reinforced protection: Works on generators and against permanent overvoltage up to 400V, with PFC technology for power supply from 185V to 265V.

Invest in the future of your workshop: Choose the best for your business and buy the GYS POWERDUCTION 50LG now

Portable and versatile: Thanks to its low weight and generously sized power and induction cables, you can take the GYS POWERDUCTION 50LG wherever you need it.

Technical characteristics *GYS POWERDUCTION:*

Frequency: 50 Hz

Coolant tank capacity

37LG: 1.5 l

39LG: 7 l

50LG: 7 l

Power: 5200 W

Heating frequency: 30-50 kHz

Power supply: 230 V 1~

Current consumption: 25 A

Dimensions: 85 x 58 x 50 cm

Weight: 65 kg

Product features:

Frequency (Hz): 50

Power (W): 5200

Tank capacity (L): 7

Product dimensions (mm): 850 x 580 x 500

Heating frequency (KHz): 30-50

Feed Type: 230 V

Weight (Kg): 0.4

Video: s3sdkBICTYU

Absorbed current (A): 25
