Product description:

FENZI G7PKC APPROVED TRANSPORT TANK

The FENZI G7PKC Approved Transportable Tank is the ideal solution for the safe and compliant transport of diesel and AdBlue. The FENZI G7PKC is specifically designed for pickup trucks, offering a capacity of 400 liters for diesel and 50 liters for AdBlue, made of polyethylene through rotational molding. Thanks to this material, the tank is lightweight, robust, and durable, ensuring safe transport in compliance with current regulations.

Main Features of the FENZI Approved Transportable Tank:

Optimized Capacity: The tank can hold up to 400 liters of diesel and 50 liters of AdBlue, making it ideal for long journeys or intensive use.

Compatibility: Designed to fit perfectly in the beds of pickup trucks, without exceeding the height of the sides, allowing the installation of modern bed covers.

ADR Exemption: The tank is exempt from ADR regulations, significantly simplifying transport operations.

Robustness and Safety: The tank is equipped with a lockable lid and reinforced closures, safety valves, and aluminum inserts compatible with Diesel and AdBlue.

Ease of Handling: Includes handles for lifting when empty and inlets for lifting when full with forks, facilitating loading and unloading operations.

Technical Specifications of the FENZI G7PKC:

Dimensions: 1200L x 750W x 780H mm

Weight: 80 Kg empty with pump unit

Thickness: 9 mm

Diesel Pump: 12V with a flow rate of 40 l/min

AdBlue Pump: 12V with a flow rate of 30 l/min

Tubing: 4 m of flexible hose with automatic nozzle for Diesel and 4 m with manual nozzle for AdBlue

Power Supply: Battery connection clamps or 2 m cable with 220V plug

Accessories: Digital flow meter, level probe, diesel impurity filter, and water separator cartridge filter available on request.

Advantages of the FENZI G7PKC:

Versatility: Ideal for a wide range of applications, from international transport to daily operations on construction sites.

Safety: Equipped with safety valves and aluminum filling caps, it ensures safe fuel management.

Efficiency: High flow pumps for Diesel and AdBlue ensure fast and efficient refueling.

The FENZI G7PKC represents the perfect combination of safety, efficiency, and regulatory compliance. With its robust design and advanced features, it is the ideal choice for those needing a reliable and versatile tank for the transport of diesel and AdBlue.

Thanks to its optimized structure and available accessories, the FENZI G7PKC meets the needs of industry professionals, always offering excellent performance and guaranteed safety.
