Product description:

AIRSTAR P630-S TELESCOPIC STAND

The AIRSTAR P630-S is a high-quality Telescopic Pole designed to meet the needs of professionals.

This robust and versatile support is the ideal choice for applications that require solid stability and security.

The AIRSTAR P630-S Telescopic Pole stands out for its ease of use. It is equipped with an advanced spring safety system that adds an additional level of protection during use, preventing sudden movements and accidental falls. The spring is designed to absorb energy and mitigate impact during sudden adjustments.

Adjustable feet are a fundamental feature of the AIRSTAR P630-S, allowing for stable configuration even on uneven ground. This adjustable element is essential to keep the pole upright, regardless of the surface on which it is placed.

Materials and Design

The AIRSTAR P630-S Telescopic Pole is made of galvanized steel, ensuring unparalleled robustness and durability. Available in silver and black, it integrates perfectly into different settings. Available accessories include sandbags, which, once filled, weigh 12 kg each, with a recommendation to purchase three units for optimal stability. The stand's cover is made of Lycra, shaped in a triangular form, adding an aesthetic touch and protection.

Physical Specifications

The AIRSTAR P630-S Telescopic Pole features a range of technical specifications that make it extremely functional:

Maximum Height: 630 cm (248 inches)
Minimum Height: 178 cm (70 inches)
Folded Length: 188 cm (74 inches)
Weight: 20 kg (44 lbs)
Maximum Load Capacity: 30 kg (66 lbs)
Footprint Diameter: 177 cm (70 inches)

Safety System

The AIRSTAR P630-S Telescopic Pole is equipped with a spring safety system, ensuring safe and stable height adjustment. Additionally, the support is equipped with a leveling leg for precise placement on uneven surfaces.

Compatibility and Use

Recommended for use with the Sirocco 700, 1000, and 1300 models, the AIRSTAR P630-S Telescopic Pole is designed to meet the needs of professionals who require stable and adaptable support. The special AIRSTAR bushing at the top allows the attachment of various devices, making it extremely versatile.

Packaging and Transport

The AIRSTAR P630-S Telescopic Pole is packaged with dimensions of 210 x 26 x 16 cm and

a gross transport weight of 24 kg, facilitating transport and logistical handling.

The AIRSTAR P630-S Telescopic Pole is an indispensable solution for professionals who need robust and versatile support. With its advanced features, sturdy design, and high load capacities, this Telescopic Stand meets all stability and functionality requirements, making it an excellent choice for any professional application.
