

# CUMMINS ONAN QD Marine Generator Three- phase Stage V 40KW

## Product description:

CUMMINS ONAN QD Three-phase Marine Generator Stage V

The CUMMINS ONAN QD is a three-phase marine generator designed to deliver exceptional performance and maximum reliability even in the most demanding conditions. With an output of 40 kW and Stage V certification, this generator is the ideal choice for medium-sized recreational and commercial vessels.

## Key Features *CUMMINS ONAN QD:*

**Cummins B4.5 engine:** The beating heart of the generator, this 4-cylinder, turbocharged, water-cooled diesel engine guarantees power, durability and low fuel consumption.

**Flexibility:** Available in both 50 Hz and 60 Hz versions, the QD adapts to different requirements and international standards.

**Compact Design:** With compact dimensions (1782x833x1036 mm) and a weight of only 1156 kg.

**Quiet:** The acoustic cab version reduces noise to a minimum, ensuring acoustic comfort on board.

**Easy maintenance:** One-sided service access facilitates routine maintenance.

**Cummins Onan Quality:** With over 100 years of experience in the marine industry, Cummins Onan is synonymous with reliability and durability.

## ***why choose Cummins ONAN QD?***

**High performance:** High power and torque to handle any load.

**Reliability:** Designed to work in marine environments, withstanding vibration, humidity and temperature changes.

**Regulatory compliance:** Stage V certification to ensure compliance with the latest emissions regulations.

**Versatility:** Suitable for different types of boats, from recreational to commercial.

### **Technical specifications CUMMINS ONAN QD:**

Length: 1782 mm

Width: 833 mm

Height: 1036 mm

Total weight: 1156 kg

Frequency: 50 Hz

Epa Tier 3 - Stage V certification

Engine model: 4-stroke, 4-cylinder, turbocharged, water-cooled marine diesel  
rpm: 1500

Voltage: 110/190

Amps: 151.9

Three-phase continuous use power: 50 Kva

Three-phase continuous use power: 40 Kw

Non-binding images and technical data.

### **Product features:**

Phase: Three phase

Continuous power three phase (KW): 40

Continuous power three phase (KVA): 50

Fuel: Diesel

Frequency (Hz): 50

Voltage (V): 230

Engine: Cummins, 4 stroke

Emissions Regulations: Stage 5

Engine rpm (rpm): 1500

Starting system: Electric

Cooling: Water

Poles: 4

Length (mm): 1782

Width (mm): 833

Height (mm): 1036

Product type: Generator

Engine manufacturer: Cummins

Weight (Kg): 1156
