Product description:

RIBIMEX VERTICAL TANK 500LT FOR WATER

RIBIMEX Vertical Tank 500LT for Water is an excellent choice for those seeking a robust and reliable solution for water storage in various contexts, whether for domestic or professional use. Designed exclusively for water, this tank for RIBIMEX is made of high-quality painted steel, ensuring resistance and durability even in the toughest conditions.

With a capacity of 500 liters, the RIBIMEX Vertical Tank 500LT is equipped with a practical M 1"1/2 outlet connection, guaranteeing a secure and easy connection to the water system. The dimensions of the RIBIMEX Vertical Tank 500LT are optimized to make the best use of space: 1500mm in height, 800mm in length, and 800mm in width, making it compact yet spacious. The weight of 77 kg provides excellent stability, allowing for safe and reliable use over time.

The RIBIMEX Vertical Cistern 500LT is specifically engineered to endure extreme temperature variations, ranging from -10°C to +110°C. This makes it highly versatile, ensuring reliable functionality for both indoor and outdoor installations. Whether exposed to harsh winter cold or intense summer heat, this cistern consistently delivers optimal performance, guaranteeing water storage efficiency in a wide range of environmental conditions. Thanks to its robust design, it remains a durable solution suitable for

various contexts, from residential to professional use.
