Product description:

CUMMINS C2250D5 Open Generator Three Phase 2250KVA Diesel

CUMMINS C2250D5 is a powerful three-phase electric generator, designed to provide reliable and continuous power in large industrial and commercial applications. This generator is ideal for ensuring power supply in critical situations, such as emergencies or as a primary power source in isolated plants.

Key Features:

Power: With a maximum power of 2250 kVA and a continuous power of 2000 kVA, this generator is able to power a wide range of electrical equipment, even under high load conditions.

Engine: Equipped with a robust Cummins QSK60-G4 diesel engine, synonymous with reliability and durability. This engine is known for its efficiency and its ability to operate in harsh environmental conditions.

Voltage and Frequency: Provides a voltage of 400-440 V and a frequency of 50 Hz, suitable for most industrial and commercial applications.

Dimensions and weight: With dimensions of 6175 mm x 2286 mm x 2537 mm and a dry weight of 16404 kg, this generator is of considerable size, but offers a lot of power.

Consumption: The fuel consumption is 328 litres per hour at 75% load, a value in line with the performance of the generator and its power.

Electric start: The electric start makes starting the generator quick and easy.

Electronic speed governor: Ensures precise regulation of frequency and voltage.

Technical Features:

Phase type: Three-phase

Continuous power: 2000 KVA / 1600 KW Maximum power: 2250 KVA / 1800 KW

Engine: Cummins QSK60-G4

Power supply: Diesel Engine speed: 1500 rpm

Starting: Electric

Speed ??governor: Electronic

Voltage: 400-440 V Frequency: 50 Hz

Consumption at 75% load: 328 l/h

Length: 6175 mm Width: 2286 mm Height: 2537 mm Dry weight: 16404 kg

Images and technical data are purely indicative.

Product features:

Phase: Three phase

Maximum power three phase (KW): 1800 Continuous power three phase (KW): 1600 Maximum power three phase (KVA): 2250 Continuous power three phase (KVA): 2000

Fuel: Diesel

Frequency (Hz): 50 Voltage (V): 400 - 440 Engine rpm (rpm): 1500 Starting system: Electric

Consumption (L/h): 328 at 75% load

Length (mm): 6175 Width (mm): 2286 Height (mm): 2537 Dry weight (Kg): 16404

Engine manufacturer: Cummins
