

VITRIFRIGO VF28BRIGHT PLUS Ice Maker

Product description:

VITRIFRIGO VF28BRIGHT PLUS ICE MAKER

The VITRIFRIGO VF28 BRIGHT PLUS is a state-of-the-art ice maker designed to deliver excellent performance and versatile use. Combining advanced technology and high-quality materials, this model, the VITRIFRIGO VF28BRIGHT PLUS, is ideal for professional settings such as bars, restaurants, and yachts, as well as for home use.

Technical Features of the VITRIFRIGO VF28BRIGHT PLUS:

Structure and Materials: Entirely made of stainless steel, designed to resist corrosion and ensure long-lasting durability even in challenging marine environments.

Production Capacity: Up to 28 kg of ice in 24 hours, with a storage capacity of 7 kg, making it ideal for medium to high usage volumes.

Energy Efficiency: Optimized energy consumption of only 310 Wh/24h, compatible with 220-240 Vac, 50/60 Hz power supply.

Advanced Technology: Equipped with Rainbow Technology, a patented protection system that extends the lifespan of key components under challenging operational conditions.

Control and Maintenance:

Capacitive button for intuitive control.

Audio and visual alarms to signal malfunctions or maintenance needs.

Automatic sanitization cycle ensuring maximum hygiene during the ice production process.

USB connection for software updates and HACCP data download, essential for quality monitoring.

Technological Innovations

The VF28 BRIGHT PLUS integrates the My Ice App, enabling simple remote control to schedule production and monitor performance. Additionally, the predictive analysis system helps prevent malfunctions, ensuring reliability and operational continuity.

Dimensions and Weight of the VITRIFRIGO:

Compact and practical, it measures 480 x 400 x 600 mm and weighs 30 kg, fitting easily into small spaces.

The ice produced by the VITRIFRIGO VF28 BRIGHT PLUS Ice Maker has a unique shape, between a cube and crushed ice, offering numerous advantages:

Hard on the inside and soft on the outside, with an extremely low moisture level to keep beverages cold longer without watering them down.

Crystal-clear appearance, ideal for elegant and refined presentations.

Versatile use: perfect for cocktails, appetizers, whiskey on the rocks, and ice buckets.

Thanks to its front ventilation and removable air filter, maintenance is quick and accessible, making the VITRIFRIGO VF28 BRIGHT PLUS a reliable and easy-to-use choice.

With the VITRIFRIGO VF28 BRIGHT PLUS Ice Maker, every detail is designed to ensure excellent performance and ease of use, making it indispensable for those seeking quality and reliability.

Product features:

Length (mm): 400

Width (mm): 480

Height (mm): 600

Dry weight (Kg): 30

Feed Type: 220-240 - 50Hz / 220 - 60Hz

Compressor: R290

Product type: Ice maker

Ice production (Kg/24h): 28

Bin capacity (Kg): 7

Absorption (Wh/24h): 310
